

Virtual Health Visit

We are happy to offer virtual visits with your orthopedic surgeon while you are in the hospital. Your surgeon will check in with you daily through an iPad. The nursing staff will help you. This will give you the chance to ask your surgeon any questions. Your surgeon can evaluate how you are recovering from surgery. This will be in place of an “in person” visit from your surgeon.

This means you do not have to wait for your surgeon to come see you at the hospital. This visit will take place between 8:30 and 9:00 a.m. Physical therapy (PT) will then evaluate your progress. You can be discharged once you graduate from physical therapy.

Your surgeon will always be available should something come up after your virtual visit. Nursing staff is more than happy to contact your surgeon at any point during your hospital stay.

Thank you once again for choosing Bronson for your joint replacement surgery!

If you have any questions, please call 269-639-2866.
