

Informed Consent Procedure Thrombectomy of Hemorrhoid

This information is given to you so that you can make an informed decision about having **Thrombectomy of Hemorrhoid**.

This procedure is done to remove a clot from a hemorrhoid. Numbing medicine is injected into the hemorrhoid to decrease pain. A small cut is made over the clot. The doctor then removes the clot from the hemorrhoid.

Reason and Purpose of the Procedure

- To remove a clot in the hemorrhoid.
- To relieve rectal pain and bleeding.
- To decrease or stop pain with bowel movements.

Benefits of this Procedure

You might receive the following benefits. Your doctor cannot promise you will receive any of these benefits. Only you can decide if the benefits are worth the risk.

- Relief from rectal pain and bleeding.

Risks of Procedure

No procedure is completely risk free. Some risks are well known. There may be risks not included in the list that your doctor cannot expect.

General Risks of Procedure

- **Pain or Discomfort.** This can be treated with over the counter pain medicine.
- **Infection.** This may require antibiotics.
- **Increased rectal bleeding and drainage.**
- **Hemorrhoids may come back.** This may require additional treatment.
- **Allergic reaction to local anesthetic.** This is rare.
- **Inability to control bowels.** This is rare.
- **Stricture (A narrowing of the rectal passage).** This is rare

Risks Associated with Smoking

Smoking is linked to an increased risk of infections. It can also lead to heart and lung complications and clot formation.

Risks Associated with Obesity

Obesity is linked to an increased risk of infections. It can also lead to heart and lung complications and clot formation.

Risks Specific to You

Alternative Treatments

Other choices:

- Treat with diet changes.
- You can decide not to have the procedure.

If you choose not to have this treatment

- Continued pain and discomfort.
- Continued swelling of hemorrhoid.
- Continued drainage and bleeding from rectum.
- May require emergency surgery.

General Information

- During this procedure, the doctor may need to perform more or different procedures than I agreed to.
- During the procedure the doctor may need to do more tests or treatment.
- Tissues or organs taken from the body may be tested. They may be kept for research or teaching. I agree the hospital may discard these in a proper way.
- Students, technical sales people and other staff may be present during the procedure. My doctor will supervise them.
